Mobil-Grid®; 500+ solarfold is a 20 Feet ISO High Cube container, with CSC certification, which integrates a plug and play pre-wired deployable and redeployable solar plant

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...

Folding solar containers replace traditional diesel generators with sustainable green solar energy to reduce diesel use, lower emissions, and allow users to cut energy costs ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

15 kW containerized power system This containerized power system is suited for loads such as a larger residential home, several recreational cabins or a remote industrial site. Specifications: o ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal

output of 134 kWp and, thanks to the lightweight and environmentally friendly ...

Foldable Photovoltaic Power Generation Cabin is a containerised solar power solution. Combining the features of solar power generation and mobility, it provides electricity all over the world.

Mobil-Grid®; 500+ solarfold is a 20 Feet ISO High Cube container, with CSC certification, which integrates a plug and play pre-wired deployable and ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight ...

Revolutionary mobile solar energy systems with 40% higher energy density. Deploy in under 6 hours and cut energy costs by up to 70% compared to diesel generators.
