What is a sunsynk Max 16kw inverter?

The Sunsynk MAX 16kW is a low voltage (48V) hybrid inverter suitable for off-grid, grid support, back-up and self-consumption PV systems. Moreover, the inverter can also be used in both three-phase and single phase parallel applications. The largest single-phase hybrid Inverter on the market.

What is a sunsynk hybrid inverter?

It's ideal for home and business and scalable so that you can expand it as required. We have taken the Sunsynk Hybrid Inverter to the highest level. Our new Sunsynk MAX is the most powerful low-voltage inverter in the world, achieving a maximum output power of 16kW and a battery charge current of 300A.

Are you liable if a sunsynk hybrid inverter is incorrectly installed?

We are not liable for any damages or warranty rejections as a result of incorrectly installed products or systems. We have taken the Sunsynk Hybrid Inverter to the highest level. Our new Sunsynk MAX is the most powerful low-voltage inverter in the world, achieving a maximum output power of 16kW and battery charge current of 275A.

How does sunsynk improve energy management?

It redefines energy management, enabling you to effectively control power flow from diverse sources like solar panels, the main power grid, and generators, storing and releasing power when you need it most. Take your energy management to unprecedented heights with Sunsynk.

Off-Grid AC Power: 13000W Peak Power (off-grid): 2 times of rated power, 10 S AC Output Rated Current: 65A Max AC Current: 70A Max Continuous AC Passthrough: 200A Frequency ...

Registered installers and distributors qualify for exclusive pricing. Contact us for more details. Contact us on 0692993817/ 0735684097 . This item is a ...
