-----

To help Puerto Rico reach 100% clean energy resources by 2050, the solar PV system can generate power directly to Puerto Rico's ...

The Marah&#250; project consists of two planned solar plus storage facilities, Salinas and Jobos, that will incorporate the most advanced solar and energy storage technologies.

The Interstate Renewable Energy Council (IREC) announced that Planta Solar has been selected to install and maintain new Energy ...

As part of its procurement plan, Puerto Rico Electric Power Authority seeks to install 1,500 MW of battery storage and requires a minimum capacity of storage to be co ...

The Interstate Renewable Energy Council (IREC) announced that Planta Solar has been selected to install and maintain new Energy Resilience Hubs that incorporate solar ...

Convergent will build and operate utility-scale solar-plus-storage in Puerto Rico, improving grid resilience and reducing costs for ratepayers.

To help Puerto Rico reach 100% clean energy resources by 2050, the solar PV system can generate power directly to Puerto Rico's grid, and the battery storage system can ...

SAN JUAN, Puerto Rico (AP) -- The U.S. Department of Energy said Thursday that \$365 million is available to install solar and battery storage systems in homes and ...

Convergent's solar and energy storage systems are expected to enhance Puerto Rico's grid resilience, lower
