-----

C& I lithium ion battery energy storage cabinet with an installed capacity of 100kW/215kWh, including 215kWh battery, battery management system, energy management system and ...

The 215kWh energy storage cabinets are high-performance solutions for industrial and commercial energy management. Available in both air-cooled and liquid-cooled designs, ...

This advanced storage unit features a total capacity of 215 kilowatt-hours using 3.2V Lifepo4 Battery technology, known for its superior safety, long cycle life, and thermal stability ...

THES38BL-100/215 liquid-cooled energy storage cabinet with 100kW/215kWh capacity. Safe, efficient LFP battery system for commercial and industrial applications.

All-In-One C& I ESS Cabinet is an all-in-one C& I energy storage cabinet, available in liquid cooling and air cooling models. Equipped with high-performance LFP cells, advanced energy ...

Our standard cabinet comes with fire system isolation, state-of-the-art liquid-cooling technology, combustible gas detection, and an FM200 fire extinguishing system, ensuring the safety and ...

The 215KWh outdoor cabinet energy storage system is a liquid-cooled energy storage solution. The system adopts a high-capacity density lithium iron phosphate battery with a 1000V ...

A 215kWh energy storage cabinet is an efficient commercial and industrial (C& I) energy storage system using LFP (LiFePO?) battery cells. It offers high energy density, excellent safety, and ...

Pre-installed design, convenient transportation and installation, quickly shortening the construction period.
