Our custom steel container farms feature, 20 ft x 8 ft or 40 ft x 8 ft "Turnkey" container sizes with enclosed controlled environment agriculture (CEA) hydroponic vertical farm growing ...

Discover how agrivoltaics can empower Thai farmers, increase land efficiency, and contribute to Thailand's renewable energy goals. This blog analyses global success stories ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

It accelerates plant growth up to four times faster than traditional methods using energy-efficient LED lights and a multi-tier cultivation system. Modular design ensures easy transport and ...

LZY's photovoltaic power plant is designed to maximize ease of operation. It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping ...

Specifically engineered to maximize yield and automation. We offer a fully insulated, food-grade shipping container that has been specifically modified to provide the optimum controlled ...

Solar shipping container powers irrigation and tools in off-grid farms. Ideal for remote agriculture needing clean, mobile energy.

Today, I'm excited to share an in-depth look at 40-foot container vertical farming, covering everything from the essential facilities and equipment to operation, application, and ...
