What is the price range for a used 40' steel storage container?

A used 40' steel storage container can cost around \$1,800 to \$2,200. On average, a used 20' storage container costs roughly \$1,500. Expect to pay upward of \$2,600 for a 45' steel container. When you compare the prices, you may find purchasing used steel shipping containers is a better option for your business.

What can you do with a used steel shipping container?

Used steel shipping containers offer flexibility to move items wherever and whenever you want. You can also secure your containers with various lock options and even install cameras for monitoring.

What size steel containers do you need for a small business?

For a small business, 10', 20', and 40' office sizes are available. These steel containers come with windows and can be set up with electricity for air conditioning and heat. They also offer tough, rugged security for your business needs.

What is the price range for renting a 20' or 40' container?

Common sizes include 20' and 40' containers, ranging in price from \$169 to \$199 a month. If you only need these for short term use, renting will save you in the long run. Purchasing a new container can cost \$3,000 to \$5,000, so consider buying used.
