Will 5G be available in Brussels by 2025?

The EU aims for uninterrupted 5G coverage in all urban areas by 2025, but Brussels is far from meeting this target. The report highlights that high-quality 5G, defined by mid-band spectrum deployment, is significantly behind schedule, with Stand-Alone (SA) 5G deployments lagging even further.

Should Brussels accelerate its 5G deployment strategy?

With the EU Digital Decade 2025 targets aiming for uninterrupted 5G coverage across all urban areas and major transport routes, Brussels must accelerate its 5G deployment strategy to avoid lagging behind European leaders. .

Does Brussels have 5G?

Brussels' 5G availability averages just 36%, significantly trailing behind other major European capitals in high-speed connectivity. From Christmas Eve to Boxing Day: What's open in Belgium? It's all about the journey? Public enthusiasm gets European night trains back on track Which Brussels municipalities are increasing property tax from 2026?

Which 5G operators are delivering the best results in Brussels?

Brussels averaged 36% of 5G registration across tested operators, Proximus and Orange achieved results above the average with 46.24% and 43.91% respectively, as Telenet lagged significantly behind at 18.17%.
