---

The cheapest models use second-hand shipping containers ($1,500-$4,000) with minimal solar capacity, while premium builds feature new corten steel structures ($10,000+) and industrial ...

Solar-powered cold rooms are an affordable storage solution for any agricultural goods, such as fish, vegetables, beverages, and dairy products. The compact design allows for low shipping ...

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

This project demonstrated that a cold room made from natural and locally available materials could generate minimal greenhouse gas emissions. The final design reduced ...

This project focuses on designing and implementing an off-grid solar power system tailored for a container home in Johannesburg, South Africa. The primary objec

Solar-powered cold rooms are an affordable storage solution for any agricultural goods, such as fish, vegetables, beverages, and dairy ...

With the sun and an Offgridinstaller containerised solar power unit customers will never run short of electricity anywhere in Africa whatever the needs and wherever the location.

Ever wondered how solar-powered cold rooms became the unexpected hero of Africa"s agricultural revolution? With post-harvest losses costing developing nations $310 billion ...

The primary objective of this paper is to demonstrate the feasibility of a system consisting of a 50 m3 cold room maintained at 5 °C in Somalia for the purpose of food ...

Learn how a solar-powered cold room in Kenya achieved 63% lower embedded GHG emissions using local materials and innovative design principles.

We have developed two different containerized systems: our mobile Solartainer Amali and our scalable Solartainer Kani. An intelligent mini ...

We have developed two different containerized systems: our mobile Solartainer Amali and our scalable Solartainer Kani. An intelligent mini-grid system distributes electricity by means of a ...

Learn how a solar-powered cold room in Kenya achieved 63% lower embedded GHG emissions using local materials and innovative design ...
