What is a solar sign light system?

This professional, commercial grade, solar sign light system is designed to illuminate very large signs, billboards and double sided signage. Supplied as a complete system. This solar sign light system is supplied with four LED light fixtures. Select from either 5 Watt, 10 Watt, 20 Watt, or 30 Watts ..

What are outdoor solar powered LED sign lights?

Outdoor solar powered LED sign lights are the perfect solution for illuminating signs in remote locations, or areas where it's too costly to access mains electric power.

Are solar-powered sign lights sustainable?

Illuminate your signs sustainably with SEPCO's commercial solar-powered LED sign lights. Our innovative solar solutions eliminate the need for traditional utility power, providing significant cost savings by removing the necessity for trenching electric wires, and eliminating ongoing electricity bills.

What types of signs can be powered with a solar lighting kit?

These include internally lite, channel lettering lite, or externally lite signs that can all be powered with a solar lighting kit. When you look at installation, traditional sign lighting systems can require long runs of electrical wire (from a power source to the light fixture), which often need to be buried (trenched) and re-landscaped over.
