These innovations aim to improve energy efficiency, reduce size, and increase the payload capacity of drones, making them more ...

Since its public launch in 2006, we have enhanced WordPress with a number of add-on services to make blogging better, safer, and more fun. Many of these services are also ...

For WordPress support requests and billing issues, please contact our 24/7 support team. Get support for Akismet, Cloudup, Gravatar, Jetpack, Longreads, Crowdsignal, Simplenote, ...

Features, news, and more: See what's been going on in Automattic's world. For media inquiries and materials, visit our Press page.

Electric vertical take-off and landing (eVTOL) aircraft have gained considerable interest for their potential to transform public services and meet environmental objectives. Designing an ...

The contents of this study focused on solving the energy storage problem through research, experiment, and simulation based testing of the application of hybrid energy storage ...

We're 1,462 Automatticians in 82 countries speaking 110 languages. We democratize publishing and commerce so anyone with a story can tell it, and anyone with a product can sell it, ...

How We Work This isn't your typical work-from-home job. Learn more about our culture, our creed, and life as an Automattician. "One of the best things about working at Automattic is the ...

Focusing on battery operated remote control helicopters, we employ the Axiomatic Design methodology to

develop design concepts of ...

Focusing on battery operated remote control helicopters, we employ the Axiomatic Design methodology to develop design concepts of platforms to act as automatic service ...

The energy storage for unmanned aerial vehicles (UAVs) market in the U.S. is driven by several key factors, including the increasing demand for ...

We support our fellow Automatticians with great benefits. In addition to those listed below, other benefits vary by location and can be found here. Wellness · We offer mental wellness benefits ...

This paper presents an overview of drones or Unmanned Aerial Vehicles (UAVs) docking stations, wireless charging systems and power sources.

Ultracapacitors are gaining traction as the fastest-growing segment, offering rapid charging capabilities and enhanced performance for UAVs. The growing demand for drones in various ...

The energy storage for unmanned aerial vehicles (UAVs) market in the U.S. is driven by several key factors, including the increasing demand for advanced UAV applications in military, ...

In this project, we propose to investigate the development of a battery-free UAV that can survive in the air and sustain long-term missions by harvesting solar energy, eliminating the need for...
