Will Bahrain be able to transform the refining industry in 2025?

Scheduled for completion in 2025, this landmark project exemplifies Bahrain's forward-looking vision to meet future energy demands and lead the way in the sustainable transformation of the refining industry.

How much solar power does Bahrain have?

Bahrain's cumulative solar capacity stood at 66 MW by the end of last year, according to figures from the International Renewable Energy Agency (IRENA). In 2017, the country unveiled plans to bring online 255 MW of solar by the end of this year. The country's Electricity and Water Authority kicked off a 100 MW solar tender last month.

How will BAPCO refining transform Bahrain's energy sector?

In the next 60 days, the Kingdom of Bahrain's energy sector will achieve a pivotal milestone as Bapco Refining, a subsidiary of Bapco Energies, embarks on an important phase of its refinery modernization startup journey. This is a historical step toward reinforcing Bahrain's position as a leader in energy innovation.

How many solar panels will be installed at Bahrain steel BSc?

The installation will consist of 77,000 solar panels alone, installed across a new 262,000 sqm stockyard shed for Bahrain Steel BSC, a wholly-owned subsidiary of Foulath. Foulath Holding and Yellow Door Energy signed a power purchase agreement (PPA) for the project at the Gateway Gulf BH Investment Forum over the weekend.

BMP is a critical component of Bahrain's Vision 2030, aimed at diversifying energy sources. Bapco Energies, the state-owned ...

Scheduled for completion in 2025, this landmark project exemplifies Bahrain's forward-looking vision to meet future energy ...
