The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems.

In the immediate future, the company plans to work closely with current charging site owners to provide more charging stations or upgrade existing stations to include fast charging ...

Bandar Seri Begawan, Brunei's capital, faces a critical challenge: balancing rising energy demands with sustainability goals. As of Q1 2025, the city's energy storage capacity stands at ...

We aim to develop scalable, high-performance BESS solutions integrated with advanced EV charging stations, positioning Meta Bright at the forefront of Malaysia's clean ...

We aim to develop scalable, high-performance BESS solutions integrated with advanced EV charging stations, positioning Meta ...

Overview of the progress and outlook of energy storage adoption on both new and second life energy storage in Malaysia. Potential benefits of energy storage in terms of ...

As Southeast Asia's energy demand grows faster than durian sales in season, storage solutions like this could prevent blackouts across the region. The project's lead ...

Brunei's energy sector isn't just about oil anymore. The Sultanate's National Climate Change Policy aims for 60% renewable energy by 2035, creating perfect conditions ...

Located in the Dedza district of Malawi near the town of Golomoti, the 20MWac solar PV and 5MW/10MWh
