The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

Solar panels can be made in Thailand, they can be made in China, but the most important point is whether or not Thailand can install ...

In this guide, we'll explore how to harness solar-powered water pumps, filtration, and heating to ensure clean, drinkable water year-round --even in remote areas.

Summary: Bangkok is rapidly adopting energy storage solutions to support its urban infrastructure. This article explores major companies developing large-scale storage plants, ...

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into ...

OffGridBox technology caters to households and institutional buildings such as health clinics and schools, it powers productive use, and can be installed in humanitarian settings, like refugee ...

In this guide, we'll explore how to harness solar-powered water pumps, filtration, and heating to ensure clean, drinkable water year ...

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power ...

The off-grid and low-maintenance extraction of atmospheric water that can be supplied directly to plants can

revolutionize irrigation in remote, water-scarce regions.

Thailand renewable energy expansion is gaining speed with major solar investments, but outdated grids and policies pose key challenges to progress. Read here!

Thailand renewable energy expansion is gaining speed with major solar investments, but outdated grids and policies pose key ...

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

Solar panels can be made in Thailand, they can be made in China, but the most important point is whether or not Thailand can install enough of them to reduce its carbon ...

A case in point is in the Philippines, where coastal communities in Palawan were provided with solar container systems after Typhoon Haiyan. These have powered health ...
