Announced earlier this week (8 December), AFC and Cabeolica have officially opened the Cabeolica Wind Farm and Battery Energy Storage System (BESS) project, which ...

With support from the African Development Bank, Cabo Verde is expanding its pioneering green electrification model. Phase II of the Cabeolica project combines wind power ...

Imagine turning 9MW of wind power into 22MW while adding enough storage to light up a small city. That's exactly what's happening on Santiago Island with a EUR50 million ...

A renewable energy mini-grid system has been inaugurated in Cabo Verde that will supply electricity to hundreds of residents living on the archipelago off of West Africa.

A renewable energy mini-grid system has been inaugurated in Cabo Verde that will supply electricity to hundreds of residents living on ...

e-5, solar pv & battery storage Ryse Energy has provided reliable access to energy to a village of 700 people in Cape Verde, that were previously living without energy, helping to shift the ...

The first project, the Norte de Ba#237;a/Salamansa Photovoltaic Solar Station, developed by APP - #193;guas de Ponta Preta in partnership with Impulso Solar, has an installed capacity of 5 MW.

The initiative will generate over 60 GWh per year, reduce 50,000 tons of CO₂ emissions, and help Cape Verde reach 50% renewable electricity by 2030.

The list includes providers of long-duration battery and solar thermal energy storage solutions for power plant
