---

Located in the Atacama Desert in northern Chile, this megaproject will have a total capacity of 2 GW of photovoltaic generation and 11 GWh of lithium-ion battery storage, ...

Explore how Chile is advancing its clean energy transition with significant developments in renewable energy and battery storage.

Developer Atlas Renewable Energy has inaugurated the 800 MWh battery energy storage system (BESS) plant in Mar&#237;a Elena commune, in the Antofagasta region.

Last week, three large-scale battery energy storage projects, co-located with solar plants, were announced in Chile. Enel is constructing a 67 MW/134 MWh battery, while CJR ...

The development of clean energy in Chile took an important step forward with the inauguration of the largest battery-based energy ...

Ongoing investments in battery storage systems will also pave the way for new wind and solar plants. In Chile's north, Spanish company ...

Three utility scale battery energy storage projects co-located with solar plants were announced last week in Chile.

California-based Nextracker, along with ENGIE Chile, in May announced an energy initiative called PV and BESS Lib&#233;lula, which consists of a hybrid park of photovoltaic panels ...

Chile has taken a significant step in the development of clean energy with the inauguration of the largest battery energy storage system (BESS) in Latin America. This milestone marks a pivotal ...

Chile has taken a significant step in the development of clean energy with the inauguration of the largest battery energy storage system (BESS) in Latin ...

Ongoing investments in battery storage systems will also pave the way for new wind and solar plants. In Chile's north, Spanish company Greenergy Renovables is developing ...

The facility, spanning over three hectares, houses 320 batteries and is expected to supply more than 280 GWh of clean energy annually to Chile's grid. This addition helps ...

The development of clean energy in Chile took an important step forward with the inauguration of the largest battery-based energy storage system in Latin America. Atlas ...

California-based Nextracker, along with ENGIE Chile, in May announced an energy initiative called PV and BESS Lib&#233;lula, which ...
