-----

Located in the village of Blitta, the solar plant will be extended from 50MW to 70MW and will include a Battery Energy Storage System to prolong the availability of clean energy to the ...

As global demand for renewable energy solutions grows, Chisinau emerges as a strategic hub for energy storage battery material manufacturing. This article explores cutting-edge innovations, ...

Energy Minister Dorin Junghietu has visited the Chisinau Power Station and stressed the need to mobilize the labour forces, in ...

Chisinau, Moldova's capital, is taking bold steps to modernize its energy infrastructure. With rising demand for clean energy and grid reliability, the city's energy storage battery policy aims to ...

The State Secretary of the Ministry of Energy, Constantin Borosan, visited the 400/330 kV Chisinau Power Station on Monday, where the Vulcanesti-Chisinau high-voltage ...

Summary: Explore how the Chisinau Power Plant Energy Storage Project addresses Moldova's energy challenges through cutting-edge battery storage technology. Discover its role in grid ...

The State Secretary of the Ministry of Energy, Constantin Borosan, has called for urgent works at the Chisinau Electricity Station, where the Vulcanesti-Chisinau High-Voltage ...

The power station has been switched from gas to heavy fuel oil as a measure to manage the energy crisis. The station will be using both, heavy fuel oil and gas for its operations.

Next-generation battery management systems maintain optimal operating conditions with 45% less energy

consumption, extending battery lifespan to 20+ years. Standardized plug-and-play ...

Energy Minister Dorin Junghietu has visited the Chisinau Power Station and stressed the need to mobilize the labour forces, in order to finish the work as quickly as possible.

Construction work on the Vulcanesti-Chisinau transmission line officially began in April 2024 and is part of the Power System Development Project, financed by the World Bank ...
