99 energy storage projects sprouting across West Africa like baobab trees in the savanna. Why? Because the region's energy landscape is shifting faster than Sahara sands in a harmattan wind.

Close on heels of its recent announcement on forming a new global unit focused on the hybrid and energy storage market, Indian EPC Sterling and Wilson has won a captive solar-diesel-storage ...

Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency regulation has been commissioned in Senegal.

We are delighted to back Africa REN and support the first project-financed solar + battery storage project in Senegal, using our experience and expertise in the country.

Located in Bokhol, Senegal, Walo Storage is the first battery storage project in West Africa dedicated to frequency regulation to ensure grid stability. This project marks a significant milestone for the region's ...

Originally announced in November 2024, the NEA Kolda project is set to become West Africa's largest solar-plus-storage complex. In April 2025, AXIAN awarded the engineering, ...

Africa REN, a leading developer of renewable energy projects in sub-Saharan Africa, announces the commencement of construction of Walo Storage, an innovative lithium battery energy storage unit.

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, as the country ...

The project aims to accelerate access to renewables in four countries located in West Africa - Chad, Liberia,
