---

Complete MWM Container solutions: read about intelligent and complete turnkey systems for decentralized energy generation (combined heat and ...

A containerised power plant housing a gas engines can be installed within an internal and external infrastructure to support the power application.

Power generation, cogeneration or trigeneration, we deliver high-quality containerized plants that are modularly designed to meet your project's unique requirements. Our plants support ...

Complete MWM Container solutions: read about intelligent and complete turnkey systems for decentralized energy generation (combined heat and power plants - CHP). The components ...

PDV's Packaged Power Station (PPS) is a highly integrated, containerized solution for fast, cost-effective supply. Ideal for mining, islands, and temporary projects.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades ...

The use of container cogeneration power plants in biogas, sewage gas, or landfill gas plants enables the economical production of energy from waste materials without the need for ...

In 2018, Geppert set a visionary, ecological milestone in the field of small-scale hydropower: the introduction of a container power plant as a power plant solution. Simple, stand-alone and cost ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

As climate change accelerates and aging grid infrastructure shows its limits, a new wave of innovation is electrifying the clean energy space: portable power plants.

That's exactly what container energy storage battery power stations are achieving today. These modular systems are revolutionizing how we store and distribute renewable ...

Explore our fully integrated modular power substations with the USP& E Powerbox. These containerized units offer modular power plant capabilities for large industrial projects.
