Get facts, photos, and travel tips for the ancient city of Damascus, a World Heritage site in Syria, from National Geographic.

This article explores the development of wind and solar energy storage power stations in the region, their technical frameworks, and their role in stabilizing Syria's power grid. Discover how ...

The old city of Damascus is considered to be among the oldest continually inhabited cities in the world. Excavations at Tell Ramad on the outskirts of the city have demonstrated that ...

Damascus launches a fixed-tariff scheme for 2-10 MW green power and signs a deal with 20Solar Energy to build twin 100-MW solar plants, one with battery storage.

Damascus (???? transliteration: Dimashq, also commonly known as al-Sh?m) is the capital and largest city of Syria. It is thought to be among the oldest continuously inhabited cities in the ...

Damascus is the capital and largest city of Syria. It is the oldest capital city in the world. Known colloquially in Syria as a?-??m and dubbed, poetically, the...

As Damascus rebuilds its energy infrastructure, smart storage solutions form the backbone of sustainable development. Whether you're upgrading existing systems or launching new ...

What are energy storage technologies?Informing the viable application of electricity storage technologies, including batteries and pumped hydro storage, with the latest data and analysis ...

Summary: Discover how Damascus industries are adopting advanced energy storage batteries to optimize power management. This guide explores technical specifications, local supplier ...

Chinese giants like BYD and CATL are circling like hawks, but local players aren't just watching from the sidelines. Damascus-based Al-Badia Energy Solutions recently ...

Damascus launches a fixed-tariff scheme for 2-10 MW green power and signs a deal with 20Solar Energy to build twin 100-MW solar plants, one with battery storage. Syria ...

Syrian opposition fighters have captured the capital, Damascus, and declared victory on state television. Russia says Bashar al-Assad has left the country and given orders ...

Damascus (???? Dima?k) is the capital and largest city of Syria. A city of immense historical importance, Damascus was the capital of the Umayyad Caliphate during the Islamic Golden Age.

Syria is building a 100-megawatt solar power station near Damascus to boost its renewable capacity. Learn how this project enhances energy security and sustainability.

This article examines its technical innovations, environmental benefits, and potential to reshape Middle Eastern power infrastructure while addressing global energy transition challenges.

The Prophet Muhammad 's first indirect interaction with the people of Damascus was when he sent a letter, through his companion Shiya ibn Wahab, to Harith ibn Abi Shamir, the king of ...
