-----

Innergex Renewable Energy has started operating a 35MW/175MWh battery energy storage system (BESS) in Chile, its second large-scale BESS in the country. The independent power ...

e-STORAGE has secured a turnkey EPC contract to supply a 98 MW/312 MWh DC Battery Energy Storage System (BESS) to the Huatacondo project in Chile.

The Desert BESS Project, developed by Atlas Renewable Energy, stands as the first large-scale, stand-alone battery energy storage system in both Chile and Latin America.

In March 2024, Atlas Renewable Energy announced it has signed a power purchase agreement (PPA) with Chilean mining giant Codelco for the supply of 375 GWh of energy per ...

With transmission lines at overcapacity and permitting ...

With the arrival of its first electric fire truck, Chile positions itself as a leader in the region in electromobility applied to safety and ...

With over 30 projects and 4 GWh of utility-scale global battery energy storage deployed, Prevalon delivers end-to-end integrated battery ...

Chile's environmental impact assessment system has approved the 250 MW/1.25 GWh Battery Energy Storage System - BESS ...

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged ...
