APPLICATION: Backup power: Supply power to the load when the power grid is out of power, or use as backup power in off-grid areas. Enhance power system stability: Smooth out ...

Enter outdoor energy storage, the unsung hero of modern off-grid adventures and renewable energy systems. Think of it as your personal power bank--but for the great outdoors.

These cabinets are designed for outdoor installations, providing uninterrupted power supply (UPS) for telecom towers, industrial sites, solar farms, and emergency backup systems.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Seamlessly integrate with existing solar inverters, generators, or grid connections without system overhauls. Enable peak shaving, time-of-use arbitrage, or backup power.
