Does Equatorial Guinea have electricity?

Equatorial Guinea has two main electricity systems, for Bioko Island, and for the continental Rio Muni region. SEGESA has 730 employees across the three business units in Malabo for the Bioko system, and 823 employees in Bata and the continental region.

What is the power grid in Equatorial Guinea?

The power grid in Equatorial Guinea is divided in two parts: the island grid (Malabo, Bioko Island) and the continental grid (Bata, Rio Muni). The high voltage power grid in the Rio Muni region has allowed the government to invest in interconnection points with Gabon and Cameroon.

Does Equatorial Guinea invest in energy?

Equatorial Guinea continues to invest heavily in the production and distribution of energy.

How much energy does Equatorial Guinea use?

Electricity consumption in Equatorial Guinea in 2015 was 36 kilotonnes of oil equivalent (ktoe). The country produces all of the energy it consumes. As of 2012, renewable energy accounted for 29.2% of the final energy mix.
