Why do you need a switchgear manufacturer?

When it comes to protecting and powering your electrical distribution systems, having the right equipment is crucial. As a leading provider of switchgear manufacturing services, we offer best-in-class components and expert solutions designed to help you optimize your supply chain and minimize downtime.

What is a custom manufactured switchgear?

Our custom manufactured switchgear solutions are designed to meet companies' specific power distribution equipment needs, and we are known as the preferred choice among custom switchgear manufacturers. We offer a wide range of stainless-steel, metal-enclosed, and metal-clad switchgear, as well as switchboards ranging from 208V to 38kV.

What is the purpose of the switchgear?

The switchgear is designed so that additional circuit breaker or auxiliary cubicles may be added in the future. The photo at left shows an Indoor 15kV Metal-Clad Switchgear with Drawout Control Power Transformer, Voltage Transformer, and Vacuum Breaker.

What are MV Switchgear systems used for?

Common uses of MV switchgear systems are found in medium to large-sized commercial and industrial facilities that incorporate switches, circuit breakers, current transformers (CT), potential transformers (PT), control panels, and more.
