What will be the supply source for the solar glass fab?

Solarcycle is planning a \$344 million solar glass fab in the US state of Georgia, supplied by recycled panel materials. "We're excited about the potential for domestic solar manufacturing growth to provide jobs and R&D development in the US," Solarcycle Chief Operating Officer (COO) Rob Vinje told pv magazine.

Is glass-glass a trend in solar modules?

Researchers at the US Department of Energy's (DOE) National Renewable Energy Laboratory (NREL) are looking into the trend toward glass-glass regarding module durability.

Why are solar glass suppliers investing in new production capacity?

As PV module capacity increases, glass suppliers are investing in new solar glass production capacity. New facilities are popping up in North America, with unique features to ensure competitiveness, such as using recycled material.

Does Vitro Architectural Glass supply First Solar?

Vitro Architectural Glass is supplying First Solar with additional US capacity. In October 2023, it announced an expansion of its contract with First Solar and a plan to invest in a plant in Pennsylvania, as well as in adapting existing PV glass facilities.
