-----

Currently, Ghana struggles with intermittent electricity supply, particularly outside major cities. While solar-based systems are a promising power source for EVs, their scalability ...

The 60kW electric vehicle charger is powered by a carport made up of 105 solar panels, which generate 61.43kWp, with a 60kWh Li-ion battery bank to provide backup and ...

Situated at the Energy Commission's (EC) head office, the charging station forms part of a joint effort by the Commission and the Energy Ministry to promote a cleaner and more ...

Officially commissioned on June 25, 2025, by the Minister for Energy and Green Transition, John Abdulai Jinapor, the station combines renewable solar energy with lithium-ion ...

Ghana's first Electric Vehicle (EV) Solar Charging Station to boost clean transport transition was launched in Accra yesterday by the ...

Led by CEO Jorge Appiah, SolarTaxi has emerged as a leader in the electric transportation industry in Ghana since its inception in 2018. The company offers electric two-wheel and ...

Led by CEO Jorge Appiah, SolarTaxi has emerged as a leader in the electric transportation industry in Ghana since its inception in 2018. The company ...

Officially commissioned on June 25, 2025, by the Minister for Energy and Green Transition, John Abdulai Jinapor, the station combines ...

Establishing modern public charging stations is cost-intensive, with potentially lengthy payback periods,

considering that Ghana is still in the early stages of EV adoption.

Ghana is pushing ahead with its clean energy agenda, announcing a new wave of solar projects totaling 200 megawatts, alongside the rollout of electric vehicle (EV) charging ...

Situated at the Energy Commission's (EC) head office, the charging station forms part of a joint effort by the Commission and the ...

The Minister for Energy and Green Transition, John Abdulai Jinapor in a major milestone towards Ghana's green transition agenda has officially commissioned the country's ...

ChargeAfrika is committed to transforming access to clean energy and transportation across Ghana. By leveraging trusted sourcing partnerships in China, we deliver high-quality solar ...

The Minister for Energy and Green Transition, John Abdulai Jinapor in a major milestone towards Ghana's green transition agenda ...

Establishing modern public charging stations is cost-intensive, with potentially lengthy payback periods, considering that Ghana is still in ...

Ghana's first Electric Vehicle (EV) Solar Charging Station to boost clean transport transi&#173;tion was launched in Accra yester&#173;day by the Ministry of Energy and Green Transition. ...
