What is solar energy in Ghana?

Solar energy refers to heat and radiant light from the sun that can be harnessed with technologies such as solar power (used to generate electricity) and solar thermal energy (used for applications such as water heating). The solar energy market in Ghana is segmented by development.

Who are the major solar energy players in Ghana?

The solar energy market in Ghana is fragmented. Some of the major players include Trina Solar Ltd, Jinko Solar Holdings Co. Ltd, SunPower Innovations, Translight Solar, and Redavia Solar Power (in no particular order), among others.

How many net-metered solar PV systems can be installed in Ghana?

Under the Ghana Mini Grid and Solar Photovoltaic Net Metering Project, 12,000 net-metered solar PV systems will be installed for public institutions, small and medium-sized businesses, and selected households. The grant will be used to install capacities of up to 67.5 MW.
