How do I call Grenada from a non-NANP country?

Calls from Grenada to non-NANP countries are dialed as 011 +country code +phone number with local area code. The entire country uses the St. George's rate centre. Radio broadcast stations: AM 2,FM 13,shortwave 0 (1998),includes ZBF-AM (Klassic AM) This section needs expansion. You can help by adding to it. (June 2008)

Does GSMarena have a country-based frequency band directory?

Beside the mobile phone specifications,GSMarena is happy to also provide you with its own country-based frequency band directory. It's not operator-specific and it's helpful if you are choosing a handset to use in your home country or if you are making sure your phone will work in the country you are heading to.

What are the benefits of 5G?

The 5G benefits range from faster speeds (up to 10x faster), much lower latency (up to 50x lower) and greater capacity allowing many more devices to be connected at the same time. Make note that for complete accuracy you should always check with your home service provider or with the local service providers in the country you are staying at.
