-----

This development represents Guyana's first utility-scale solar PV and BESS investment and mark a significant milestone in the country's renewable ...

Spanning 13 acres, the advanced facility combines solar generation and energy storage to stabilize power supply on the Essequibo Coast. It captures excess solar energy ...

Designed to respond instantaneously, the BESS provides critical backup power to protect the integrity of the electrical grid and maintain operational stability in unexpected ...

The state-owned Guyana Energy Agency has kicked off a tender for the transportation, installation and commissioning of solar systems with accompanying battery ...

Guyana has unveiled a new 0.65 MW grid-forming solar project, paired with a 1,500 kWh battery energy storage system (BESS) ...

Guyana has unveiled a new 0.65 MW grid-forming solar project, paired with a 1,500 kWh battery energy storage system (BESS) and a 13.8 kV transmission line. [pdf]

This development represents Guyana's first utility-scale solar PV and BESS investment and mark a significant milestone in the country's renewable energy transition.

The Guyana Utility-Scale Solar Photovoltaic Program (GUYSOL) is seeking bids for engineering, procurement and construction (EPC) contracts for the eight solar PV projects and ...

The road ahead isn't without potholes--battery recycling infrastructure needs development, and cybersecurity
