Durability: ITW Performance Polymers structural adhesives have excellent strength, elongation and fatigue resistance. Long-term durability of assemblies is enhanced by an even distribution ...

Thermally conductive adhesives (TCAs) help transfer heat away from a battery cell and provide electrical insulation to help prevent short circuits or overheating within the battery pack, ...

With high-temperature resistance, excellent adhesion, and chemical stability, our battery tapes enhance safety, reliability, and efficiency in battery assembly and performance.

Discover the most popular thermally conductive adhesives for battery packs, ensuring safety, heat dissipation, and performance in EV battery systems.

Our heat-resistant battery maintains a 1C discharge rate even at temperatures of 85°C, thanks to innovative design and high-temperature electrolytes. We adhere to ISO9001:2015 standards to ...

Provides insulation, strong adhesion, and flame resistance for lithium-ion battery protection. High-temperature lithium battery tapes are made from insulating materials (PP, PET, or PI films) ...

Thermally conductive adhesives (TCAs) help transfer heat away from a battery cell and provide electrical insulation to help prevent short circuits ...

Shop high-quality lithium battery pack insulation tapes for reliable electrical protection. Heat-resistant, self-adhesive solutions for battery terminals.

These specially modified bobbin-type LiSOCl₂ batteries feature high energy density (1,420 Wh/l), high

capacity, and the ability to withstand prolonged ...

Lithium battery high-temperature resistant tape is made with PET or PI film as backing, and coated with acrylic or silicone glue. It's also called Lithium battery pole ear protect tape and ...

Discover the most popular thermally conductive adhesives for battery packs, ensuring safety, heat dissipation, and performance in EV ...

Tonsan® 1521 White is a two-component adhesive that can cure quickly at room temperature, providing excellent sealing and bonding. This material is recommended for potting electronic ...

These specially modified bobbin-type LiSOC12 batteries feature high energy density (1,420 Wh/l), high capacity, and the ability to withstand prolonged exposure to extreme temperatures (-80°C ...
