Shaped by the movement of the water, the surrounding park is designed by BIG Landscape and manages storm surges through sloping terraces, vegetated dunes, and wetland gardens that ...

Daily energy use (Wh) -> how much power the pump consumes in 24 hours. Instead of guessing or relying on trial-and-error, this calculator uses physics formulas to give accurate numbers ...

BIG's aim was to amplify Treehotel's focus on sustainability and natural tourism, and create a resilient design in a region with strong seasonal climatic contrasts.

The building embodies BIG's notion of hedonistic sustainability while contributing to Copenhagen's goal of becoming one of the world's first carbon-neutral cities.

BIG has grown organically over the last two decades from a founder, to a family, to a force of 700. Our latest transformation is the BIG LEAP: Bjarke Ingels Group of Landscape, Engineering, ...

Choosing the right size pump depends on a variety of factors such as the desired water flow rate, head height (the distance the water needs to be lifted), and the available solar power.

Throughout the building, warm wood cladding and concrete floors are accented with the school's signature colors of red and gold. The BIG-designed interiors are designed to accommodate ...

Design your solar irrigation system instantly. Calculate pump horsepower (HP) and solar array size based on well depth and water requirements. Eliminate diesel costs today.

Daily energy use (Wh) -> how much power the pump consumes in 24 hours. Instead of guessing or relying on

trial-and-error, this calculator uses ...

Learn the key factors to think about when sizing a solar water pump system. Find out how to calculate water needs and figure out the total dynamic head. Discover what to ...

Our latest transformation is the BIG LEAP: Bjarke Ingels Group of Landscape, Engineering, Architecture, Planning and Products. A plethora of in-house perspectives allows us to see ...

Surface pumps can draw water from only 20-25 ft (7-8 m) below ground level, but they can push it far uphill. Peak sun hours (also known as solar insolation) refers to the average equivalent ...

The Mountain is a hybrid combining the splendors of a suburban lifestyle: a house with a big garden where children can play, with the metropolitan qualities of a penthouse view and a ...

At the foot of BIG HQ, BIG's Landscape team has transformed a former parking area into a 1,500 m² public park and promenade, inspired by the sandy beaches and the coastal forests of ...

The definitive guide to solar water pumps. We cover how they work, how to size the right panels and pump for your project, costs, and installation. Use our interactive calculator to ...

Bjarke Ingels-- Founder & Creative Director, BIG The first and second floors include four play zones arranged by color and programmed with activities that represent a certain aspect of a ...
