-----  
How many 5G base stations are there in the world?

In addition, a total of 819,000 5G base stations have been built by these three telecom giants, accounting for 70% of the world's total. As China has played a leading role in 5G technology, its 5G development has extraordinary significance for other countries.

Which mobile operators are offering limited 5G services in Dushanbe?

Since 2020, rival operators MegaFon, Tcell and ZET-Mobile have all started offering limited 5G services in Dushanbe. Bai Wei, General Manager of Baicells International Business, said: "Baicells is very honoured and pleased to be selected by Babilon-Mobile to build the whole 4G network and the 5G in the near future.

Does Dushanbe have 5G?

TeleGeography reports that while the operator has offered 4G in areas of Dushanbe since 2012 and in other cities since 2016, it is currently the only operator in the market that has not yet begun offering 5G services. Since 2020, rival operators MegaFon, Tcell and ZET-Mobile have all started offering limited 5G services in Dushanbe.
