Is there a solar market in Zambia?

Yes, the Zambian solar market is growing. Although it is still relatively small compared to countries like Tanzania, there is much room for solar to grow due to the increasing electricity demand in Zambia. Currently, 95% of the electricity supply comes from hydropower, with less than 1% from other renewable sources.

How does solar power work in Zambia?

Solar power in Zambia primarily uses solar photovoltaics (PV) to generate electricity. Several communities, entrepreneurs, the government, and NGOs collaborate to increase the share of solar power in the country.

How many solar companies are licensed in Zambia?

At the moment, there are around 29 solar companies with a licence in Zambia. Due to announced (private) financing opportunities, the market is expected to grow more in the upcoming years, leading to an increase in access to electricity.

Will new solar companies emerge in Zambia?

Given the growing demand and government initiatives, it is very likely that new solar companies will arise in Zambia. The government aims to develop 600MW on-grid solar projects in the coming 2-3 years, with the GET FiT program supported by the German Development Bank.

Explore Zambia solar panel manufacturing landscape through detailed market analysis, production statistics, and industry insights. ...

Sources: IRENA statistics, plus data from the following sources: UN SDG Database (original sources: WHO; World Bank; IEA; IRENA; and UNSD); UN World Population Prospects; UNSD ...
