HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is ...

In an era where energy demands soar and reliability is non-negotiable, the GSL All-in-One Liquid-Cooled Battery Energy Storage Cabinet (125kW/261kWh) sets a new standard--merging...

In an era where energy demands soar and reliability is non-negotiable, the GSL All-in-One Liquid-Cooled Battery Energy Storage Cabinet (125kW/261kWh) sets a new ...

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, ...

Its liquid cooling technology guarantees optimal performance even in confined spaces, making it ideal for both large industrial facilities and smaller public utility deployments.

For applications like rapid EV Battery Cooling during fast-charging sessions or maintaining stability in large energy storage systems, this level of control is essential for unlocking ...

Before using this product, please read this manual carefully and operate the energy storage system according to the methods described in this manual to avoid equipment damage or ...

The energy storage system has a separate firewall with a fire resistance time of 1h, and the length and height
