Seoul/Shanghai | A global surge in renewable energy and data centre demand is powering a boom in using batteries for storage on ...

This article dives into North Korea's large energy storage cabinet model - a topic as mysterious as the country itself. We'll unpack its tech specs, global relevance, and whether it's more ...

When you think of cutting-edge energy storage, North Korea might not be the first country that comes to mind. But here's the twist: this isolated nation has been quietly ...

By filing a new patent for a high-density battery design, the company is entering a race already crowded with big names like BMW, ...

North Korea's recent deployment of containerized energy storage vehicles (CESVs) shows how mobile battery systems could redefine energy access in challenging environments.

Energy storage systems, consisting of racks of battery modules regulated by management software, help national electricity ...

By filing a new patent for a high-density battery design, the company is entering a race already crowded with big names like BMW, Volkswagen, Mercedes-Benz, BYD, and ...

By pursuing solid-state battery development, Huawei joins a growing list of global automakers and tech companies such as BMW, Mercedes-Benz, Volkswagen, and BYD, all racing to unlock ...

Energy storage systems, consisting of racks of battery modules regulated by management software, help

national electricity networks -- as well as individual homes, ...

Seoul/Shanghai | A global surge in renewable energy and data centre demand is powering a boom in using batteries for storage on electricity grids, creating a new front in the ...

In a pilot project that will run until 2021, Hyundai Motor and Korea Hydro & Nuclear Power Co. (KHNP) will operate an energy storage project in which KHNP generates 10 megawatt hours ...

Huawei is making bold claims in the race for next-generation electric vehicle batteries, but are they too good to be true?

Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres ...
