Does Huawei make solar inverters?

Huawei manufactures products such as solar inverters, which convert current to allow solar energy to pass into the grid. As of 2022, Huawei had a 26pc share of the European market for these devices, according to Wood Mackenzie. The tech giant has inked a number of deals with UK companies including Lightsource Labs, a subsidiary of BP.

Does Huawei still sell smart devices in the UK?

Huawei continues to sell smart devices such as watches and earbuds in the UK, while it also carries out maintenance on its remaining network equipment. While Huawei is perhaps the most recognisable - and infamous - of China's tech companies, it is not the most significant player in Britain's solar industry.

Is Huawei promoting alternative brands?

Suppliers were informed on August 22 and some told us they are already promoting alternative brands. Huawei sells a range of kit in solar energy storage systems under the LUNA brand, including modules, bundles, and inverters. Huawei refused to comment when asked to officially confirm its plans.

Does Huawei still make money in the UK?

This means Huawei now relies on wearable tech, PCs, tablets, and audio products in the UK. As The Register revealed this week, the company's revenues have plunged in Britain from a peak of $\pounds 1.28$ billion (\$1.7 billion) in calendar 2018 to $\pounds 188$ million (\$159.6 million) in 2024.
