What are PV solar cell glass price developments?

This post is a summary of the PV solar cell glass price developments. The price developments of PV solar cell glass are expressed in US\$ prices converted FX rates applicable at the time when the price was valid. PV solar cell glass price index developments are calculated from multiple separate sources of data to ensure statistical accuracy.

How did Chinese solar panels avoid tariffs?

Companies Were Avoiding Tariffs The U.S. had already imposed taxes on Chinese solar panel makers when they sold products to American buyers. To avoid those tariffs, the companies began using factories in Southeast Asia. However, the same Chinese companies own or control many of those factories.

Why did the US impose new tariffs on solar panels?

On April 21, 2025, the U.S. Department of Commerce finalized new tariffs on solar panels and components imported from Malaysia, Thailand, Cambodia, and Vietnam. The decision stems from findings that certain Chinese companies circumvent existing tariffs using factories in these countries.
