-----  
When will SA 5G be available in Poland?

Deployment of SA 5G networks has still not occurred in Poland and is not expected before 2026, according to the latest announcements made by the President of Orange. For now, the operator is focusing on expanding coverage by stations that share LTE and 5G.

Does Poland have a 5G network?

While investments in DSS and the mid-band rollout have enabled Polish operators to make significant strides in 5G availability, which increased nationally from 28.5% in Q1 2024 to 43.1% in Q1 2025, regional coverage disparities continue to be a feature of the mobile network experience in Poland.

Where is 5G deployed in Poland?

Operators have prioritized 5G deployments in the richest and densest parts of Poland where fiber is heavily deployed, including the Masovian (Warsaw) and Pomeranian (Tri-City) provinces.

How fast is 5G in Poland?

Between Q1 2024 and Q1 2025, median 5G download speeds rose by as much as 72% on Play (to 122.64 Mbps), 86% on T-Mobile (to 201.76 Mbps), and 90% on Orange (to 222.10 Mbps)--while declining by over 10% on Plus (to 116.76 Mbps). Network investments have broadened 5G coverage in Poland, but significant regional disparities remain.

Poland, 19 June 2025 - T-Mobile Poland has expanded its 5G network to more than 4 000 base stations operating in the 3.5 GHz C-band, following the addition of 91 new sites in the past week.

Since the commercial 5G launch in 2020, the operators have been focusing on 5G coverage expansions and making packages more ...
