What is solar street light?

Solar street light is simply an outdoor source of light powered by solar power. It is now becoming the common dependable source for street lighting across the globe due to its unending benefits to consumers.

Where can solar streetlights be used?

Ideal where panel orientation is critical, these solar streetlights suit highways, coastal roads and parking lot upgrades, offering energy saving operation and easy maintenance. Modular builds with upsized panels and batteries for long winter nights and dust-prone zones.

How many solar street lights did Inlux solar provide?

Inlux Solar has proudly supplied over 2,500 sets of solar street lights for this project, which have been installed by the United Nations Development Programme (UNDP) in Benghazi, Ubari, Sebha, and Tawargha. Inlux Solar provided 4,200 sets to the United Nations Refugee Agency (UNHCR), which have been installed in 10 refugee settlements.

Why should you choose a solar street light manufacturer?

Tender-ready specs and IES/DIALux support, strict QC and certifications, fast lead times, and full after-sales. As a high-quality commercial solar street light manufacturer, we engineer solar powered street lights that deliver reliable lighting for municipal and industrial corridors.
