What is the capacity of a container power generator?

Container power generators are available with a rated capacity of 30 kVA to 3000 kVA. Depending on the asked performance and execution, the generators are mounted in soundproof, weatherproof ISO container with a length of 10', 20' or 40'.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

Why should you choose a containerised generator?

Fire Detection Panels and Intruder Alarms: Enhanced safety and security. Our containerised generators are suitable for a wide range of applications, including: Super Silent: Super silent 65dBA at 1m for prime power running diesel and gas. Critical Backup Power: For MOD, NHS, and HMP sites, ensuring reliable performance in emergencies.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Check out our Israel container generator models selection for the very best in unique or custom, handmade pieces from our shops.

We've long had a reputation as a provider of never-before-seen power products -- and will offer you all the engineering and manufacturing ...

Our containerised generators are suitable for a wide range of applications, including: Super Silent: Super silent 65dBA at 1m for prime power running diesel and gas. Critical Backup Power: For ...

We've long had a reputation as a provider of never-before-seen power products -- and will offer you all the engineering and manufacturing support you need to customize your generator ...

SEA BOX's selection of generator sets can be connected to one or several refrigerated containers to provide reliable power ...

Whether you require only a secure container to hold your generator or a fully sound attenuated system including fuel storage and distribution, we will supply any ISO container based system ...

We can supply the 20" container, 40" container, and widen or heighten container type. They are divided into the normal type and silent type. This series generator set can be easily moved to ...

Container power generators are available with a rated capacity of 30 kVA to 3000 kVA. Depending on the asked performance and execution, the generators are mounted in ...

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ...

Mobile power station: mainly used for field operations and mobile lighting, including hand-pushed, three-wheel, four-wheel, trailer power station, automobile power station, container power ...

SEA BOX's selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect to a local power source.

We can supply the 20" container, 40" container, and widen or heighten container type. They are divided into the normal type and silent type. This ...

These modular systems deliver fully integrated container energy solutions that can be deployed swiftly and scaled to meet evolving energy demands. Housed in sound-attenuated, weather ...

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application ...
