Rolls-Royce has received an order from the Latvian transmission system operator Augstsprieguma tīkls (AST) to supply a ...

Its energy storage capacity is equivalent to powering an electric vehicle for 115,000 kilometers (71,457 miles), running a household washing machine for 19,000 cycles, or ...

The project in Latvia will be their largest battery system to date, aligning with their strategic business domain of providing sustainable and reliable energy security solutions globally.

Rolls-Royce will supply an mtu large-scale battery storage system to secure the Latvian power grid. In 2025, Latvia, together with ...

The most promising sectors for renewable energy equipment in Latvia are energy efficiency solutions, battery storage technologies, biomass power, wind energy, and energy ...

The delivery includes inverters and battery control equipment for a battery energy storage system (BESS), one of the most powerful in ...

All equipment will be provided by Rolls-Royce Power Systems, one of the world's best-known manufacturers of energy storage systems. Dr Jörg Stratmann, CEO of Rolls-Royce Power ...

Rolls-Royce will supply an mtu large-scale battery storage system to secure the Latvian power grid. In 2025, Latvia, together with the other Baltic states, will synchronize its ...

of providing ...

Latvia's transmission system operator, JSC "Augstsprieguma tīkls" (AST), has received its first shipment from Italy. Rolls-Royce Solutions GmbH has delivered inverters and ...

Rolls-Royce has received an order from the Latvian transmission system operator Augstsprieguma tīkls (AST) to supply a large-scale mtu battery storage system to secure the ...

Emerging markets in Africa and Latin America are adopting industrial storage solutions for peak shaving and backup power, with typical payback periods of 2-4 years.

From residential battery walls to 100MW grid-scale installations, Latvian power storage manufacturers deliver solutions that balance innovation with practicality.

The delivery includes inverters and battery control equipment for a battery energy storage system (BESS), one of the most powerful in the European Union. The system, with a ...
