Alternative Maritime Power<sup>®</sup>; (AMP<sup>®</sup>;) is a unique air quality program that focuses on reducing emissions from container vessels docked at the Port of Los Angeles.

The region around the Lusitanian Basin is Portugal's economic heartland, encompassing key industrial sites, which account for almost half of Portugal's point source emissions, supporting ...

In 2024, our data showed a compliance rate of over 95% indicating the 2020 At Berth Regulation is successful in reducing emissions around our port communities. Below is a ...

Among the multiple advantages that it offers, the gas-engine-based solution does not generate soot particles or Sulphur oxides (SOx), while producing 80% fewer NOx emissions and less ...

SeaCube seeks to reduce emissions in refrigerated transport via reefer leases - powered by Greensee's AI-driven CO2 emissions reporting technology - and battery-powered ...

The Port Authority of Lisbon (APL) and the Port Authority of Setúbal and Sesimbra (APSS) participated in the fourth edition of the Electric Summit - Energy for Life, where they ...

Alternative Maritime Power<sup>®</sup>; (AMP<sup>®</sup>;) is a unique air quality program that focuses on reducing emissions from container vessels docked at the Port ...

Oxywise's containerised state of the art lasergas generator met the customer's needs by producing over 7000 m3 nitrogen per unit per month, reducing cost, producing clean nitrogen, ...

Zero-emission CHE is battery-electric or hydrogen-electric. Our analysis shows that battery-electric CHE is

the more realistic solution in the short to medium-term. It is not yet competitive ...

Green Power Systems offers the possibility of installing generators inside CONTAINERS of 10" / 20" (BOX and HC) / 30" / 40" (BOX and HC) or ...

SeaCube seeks to reduce emissions in refrigerated transport via reefer leases - powered by Greensee's AI-driven CO2 emissions ...

Green Power Systems offers the possibility of installing generators inside CONTAINERS of 10" / 20" (BOX and HC) / 30" / 40" (BOX and HC) or SHELTERS according to the customer's ...

Zero-emission CHE is battery-electric or hydrogen-electric. Our analysis shows that battery-electric CHE is the more realistic solution in the short ...

Among the multiple advantages that it offers, the gas-engine-based solution does not generate soot particles or Sulphur oxides (SOx), while producing ...

Nuclear power has zero-emission during operation and low carbon during its lifecycle and research is ongoing. New applications are being studied to explore the feasibility of introducing ...
