It will be part-financed by the European Regional Development Fund (ERDF). It will take the form of direct grants covering no more than 85% of a project's capital expenditure, ...

It focuses on technologies like standalone battery energy storage systems (BESS), pumped hydro energy storage (PHES), and thermal energy storage. The program supports ...

It focuses on technologies like standalone battery energy storage systems (BESS), pumped hydro energy storage (PHES), and ...

The scheme aims to deploy between 2.5 and 3.5 gigawatts (GW) of new storage capacity, enhancing the flexibility and resilience of the national power system while enabling ...

The project, sponsored by the Spanish government's energy research institute, CIUDEN, is scheduled to be completed in 16 months, with installation targeted for the second ...

Highview Power, a global leader in long duration energy storage solutions, has announced it is developing up to 2 GWh of long duration, liquid air energy storage projects across Spain for an ...

It will be part-financed by the European Regional Development Fund (ERDF). It will take the form of direct grants covering ...

Developer Rolwind has won a favourable environmental impact assessment (EIA) result for a 200MW/800MWh BESS in Spain, ...
