Will Malta develop a battery energy storage system?

The government has received 16 offers for the development of Malta's first large-scale utility battery energy storage systems, Minister for the Environment, Energy and Public Cleanliness Miriam Dalli told The Malta Independent.

What does interconnect Malta do?

They will provide services to address the intermittency of renewable energy sources, enabling the storage of electricity generated during peak photovoltaic production hours and shifting it to periods of lower renewable energy sources output, when consumer demand is higher," Interconnect Malta had said last November.

What is Malta's Energy & Climate Strategy?

This project is in alignment with Malta's energy and climate strategies, as it emphasises the integration of energy emanating from renewable sources and the mitigation of energy curtailment, thus enhancing energy security and reducing carbon emissions.

How does the Bess project affect PV generation in Malta?

The BESS project is also intended to mitigate weather-related challenges posed by renewable energy sources, which are reliant on climatic conditions and can therefore lead to significant dips in generation during moments of sudden cloud coverage severely affecting the PV generation in Malta.

This pioneering project, the first of its kind in Malta, will not only provide essential electricity storage but also play a crucial role in ...
