Will Delhi be equipped with 'South Asia's largest battery energy storage system?

Power Minister Ashish Sood on Wednesday announced that Delhi is set to be equipped with "South Asia's largest" utility-scale standalone Battery Energy Storage System (BESS).

Who commissioned India's first standalone battery energy storage system?

India's first commercial standalone battery energy storage system (BESS) project with a 20MW/40MWh capacity at the distribution company level and a tariff approved by the electricity regulatory authority has been commissioned by power sector infrastructure investment trust IndiGridin Delhi.

What is India's pumped storage framework?

The ministry of power stated that the framework is aimed at facilitating investment in pumped storage infrastructure and ensuring a structured, transparent, and competitive bidding process that balances risk-sharing between stakeholders. The guidelines are expected to support India's transition towards a renewable energy-driven economy.

What is India's energy storage capacity?

India's total BESS capacity reached 219.1 MWhas of March 2024,according to Mercom India Research's report,India's Energy Storage Landscape.
