
The Nordic region"s energy-intensive industries, including pulp and paper, metals processing, and data centers, are increasingly using on-site storage to lower energy costs and ...

Sweden"s largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in ...

Ingrid Capacity, renowned for optimizing grid-scale battery storage and flexible assets across Europe, entered a strategic partnership with SEB Nordic Energy in September ...

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy"s Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality ...

Discover how the Nordic region is leading in chemical energy storage solutions and what you need to know to succeed in project bidding. Learn about market trends, case studies, and ...

"Think of supercapacitors as the sprinters of energy storage," says Dr. Lena Fjellström, project lead at Nordic Energy Research. "They"re not here to replace marathon ...

OX2 has sold its 50MW/110MWh battery energy storage project in Uusnivala, Finland, to the L& G NTR Clean Power Fund. The project will help regulate grid frequency and stability and ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

Initial construction of the battery storage project -- which has a capacity of 5 megawatts and 10 megawatt-hours -- began in the third quarter of 2024, and it is expected to ...

From advanced storage solutions to nuclear innovation, learn how technological breakthroughs are paving the way for a more flexible, efficient and sustainable energy future.
