Company: Solgrid is an energy company that develops, finances, builds and operates solar power plants in Nordic markets. This is pioneering work given Norwegian conditions. It has ...

During the recent surge in solar PV installations, the Nordic countries - Sweden, Norway, Finland, and Denmark - have increasingly embraced solar PV technology, defying their northern geographical challenges.

Norway's Furuset Solkraftverk, the first large-scale solar park, is now live and generating electricity over 200 hectares in Stor-Elvdal.

In recent years, the Nordic countries have made significant strides in incorporating solar energy into their renewable energy mix. This blog delves into the key trends and statistics that ...

During the recent surge in solar PV installations, the Nordic countries - Sweden, Norway, Finland, and Denmark - have increasingly embraced solar PV technology, defying their northern geographical ...

We have solar projects across many different European countries. Read more about our key portfolio figures such as MWp in development, construction and operation, our overall power production etc.

Utility-scale solar projects in Sweden, Finland, and Denmark are flourishing, while battery storage and AI are reshaping what's possible for grid stability and long-term power supply.

German utility Uniper is developing its first two solar power farms in Sweden as part of a wider company push to invest into renewable energy, it said on Friday.

This study analyses how the rapid growth of utility-scale solar PV in the Nordic region will impact its economic viability by 2030, using Finland as a case study. The analysis is based on modelling the ...

Alight, a leading Nordic solar independent power producer, and Neoen, one of the world's leading producers of exclusively renewable energy, proudly announce the commissioning and full ...

Sweden: Danish solar company Nordic Solar A/S has announced it has started the construction of the 92 MWp Hultsfred solar park in Sweden, its second and largest in the country. ...

Sweden: Danish solar company Nordic Solar A/S has announced it has started the construction of the 92 MWp Hultsfred solar park in Sweden, its second and largest in the country. The PV power plant is expected to be ...

Alight, a leading Nordic solar independent power producer, and Neoen, one of the world's leading producers of exclusively renewable energy, proudly announce the commissioning and full operational status of the Hultsfred ...
