-----

In March 2024, well-known Omani firm Nafath Renewable Energy signed an MoU with Takhzeen, a 100 per cent subsidiary of publicly traded firm ONEIC, to help introduce ...

As demand rises for solar power, electric vehicles, and energy independence, a new era of integrated energy solutions is emerging--combining solar panels, EV chargers, and ...

Without efficient storage systems, renewable power generation remains vulnerable to variability as peak sunshine or gusty winds do not always align with peak demand. Energy ...

The Minister said that the first renewable energy storage project in Oman will be announced soon, adding that these projects will strengthen Oman's transition to renewable ...

Enter Oman's groundbreaking Muscat Energy Storage Support Policy - the unsung hero ensuring nobody gets left in the dark. This isn't just bureaucratic paperwork; it's ...

Muscat - Nama Power and Water Procurement (PWP) signed an agreement on Monday with a consortium led by Masdar to develop Oman's first utility-scale solar and battery ...

Oman recently signed a landmark deal for its first large-scale solar and battery storage plant, a critical step in creating a resilient power grid. This approach supports Oman's ...

The Ibri III project will combine a 500 MW solar plant with a 100 MWh battery energy storage system, making it Oman's first utility ...

The Ibri III project will combine a 500 MW solar plant with a 100 MWh battery energy storage system, making it Oman's first utility-scale solar-plus-storage system.

Muscat - Nama Power and Water Procurement (PWP) signed an agreement on Monday with a consortium led by Masdar to ...

This strategic project, covering an area of nearly 10 million square meters with a generation capacity of 500MW, and battery energy storage system (BESS) capacity of ...

Grid flexibility, energy storage and demand management will determine how effectively renewable capacity translates into reliable power supply. For Oman, this aligns with ...
