---

Energy Ottawa and the City of Ottawa entered into an agreement to pursue solar generation after the success of a 2010 pilot project that consisted of smaller solar systems ...

Dunrobin Solar Inc., a subsidiary of Westbridge Renewable Energy Corp. is developing the Dunrobin Solar Project. The 250 mega-watt solar project is being developed ...

To support these goals, Portage Power is proposing new solar generation projects that would add clean, dependable energy to the system. Kanata Solar I & II and Richmond Solar I, II, & III.

Environmental organizations and a local renewable energy co-op are applauding Ottawa City Council's approval of a controversial and hard-fought battery energy storage ...

Four solar panel projects in Ottawa have received the green light from city council and experts expect more will soon follow.

These developments mark an exciting new chapter for OREC and for Ottawa's renewable energy future. We're eager to provide you with more details, but we want to ensure ...

Power your home with clean, sustainable energy, and keep more money in your pocket. Our customized residential solar installations are designed for Ottawa homes to reduce hydro ...

BESS can also support renewable energy generation by way of wind and solar facilities, where production is intermittent. As a result, IESO has identified the need to increase ...

Quick Facts AudioMedia Contact About Hydro Ottawa About Energy Ottawa Energy Ottawa generates enough green power to operate 62,000 homes annually and is Ontario's largest municipally-owned producer of green

power.Solar power generating systems use photovoltaic solar cells to convert energy from the sun directly into a flow of electrons, which generates electricity for consumers.The City of Ottawa is expected to receive approximately \$85,000 a year or \$1.7 million in rev... Energy Ottawa generates enough green power to operate 62,000 homes annually and is Ontario's largest municipally-owned producer of green power.Solar power generating systems use photovoltaic solar cells to convert energy from the sun directly into a flow of electrons, which generates electricity for consumers.The City of Ottawa is expected to receive approximately \$85,000 a year or \$1.7 million in revenue over the 20-year contract. That's found revenue for roof space that isn't otherwise used.The Jim Durrell Recreation Centre's 250 kW solar photovoltaic system, has an estimated output of 328,465 kWh/year (the equivalent of removing more than 30 homes from the grid annually).See moreNew content will be added above the current area of focus upon selectionSee more on hydroottawa
