Today, we successfully loaded our first 40-foot container and departed for Papua New Guinea to provide clean energy solutions for a large-scale farm project.

The Asian Development Bank has launched an international tender for a 1 MW solar-plus-storage minigrid in Papua New Guinea. ...

The Asian Development Bank has launched an international tender for a 1 MW solar-plus-storage minigrid in Papua New Guinea. Learn about the project specs, eligibility, ...

A tender has opened for the development of a hybrid solar minigrid system in Papua New Guinea.

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

The project encompasses the construction of a hybrid pv system and battery energy storage system (BESS) minigrid to be built on the island of Buka, within the autonomous ...

Cetelnet is a trusted solar grids contractor in Papua New Guinea, offering end-to-end design, installation, and maintenance of off-grid and hybrid solar systems tailored to local conditions.

PV Array: 792 units of 650W high-efficiency solar modules, generating sufficient power to cover daytime consumption. Energy Storage System: A 1MWh battery energy ...

Since 2013, we have implemented numerous projects, starting with our first solar system installation in Palmalmal, East New Britain, PNG. Our footprints now extend across various ...

Located in Port Moresby, Papua New Guinea, the groundbreaking Port Moresby Energy Storage Project represents a critical step in modernizing the nation's power infrastructure.

The project encompasses the construction of a hybrid pv system and battery energy storage system (BESS) minigrid to be built on ...

A small factory located in Papua New Guinea recently installed a complete 50KW solar energy storage system. This system effectively meets the daily operational electricity ...
