A major fire broke out Thursday at one of the world's largest battery storage plants.

The plant, owned by Vistra Energy, is one of the largest battery storage sites in the world and holds tens of thousands of lithium-ion batteries that store electricity for the power grid.

Let's catch up on what happened in this fire, what the lingering concerns are, and what comes next for the energy storage industry.

Evacuations were lifted Friday night for people near an ongoing fire that erupted Thursday at one of the world's largest battery storage plants in the northern half of California.

One of the world's largest battery storage facilities is being consumed by flames near San Francisco on Friday, and officials say the ...

A major fire erupted south of San Francisco at the Moss Landing Power Plant, forcing hundreds to evacuate. So far, the fire has stayed in the facility, which stores thousands ...
